JAKO®

ARCHITECTURAL HARDWARE

DOOR PULLS / MANILLONES

Who we are?

LNS Manufacturing is a proudly Mexican Owned and operated company located in the heart of Cancun.
The factory was born out of the need and necessity to bring to the market an integration of services and top quality products.

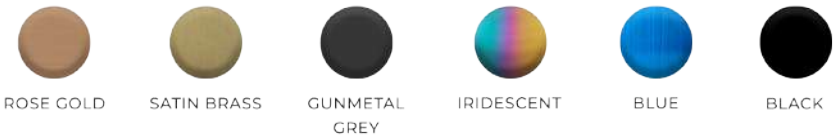

In order to bring to the client the best and innovative products, we host and array of technologically advanced CNC, Laser, bending, and tooling machines that work in conjunction with out team of engineers in the design and creation of such products. These porwerful machines are used to process metal for various applications around the world.

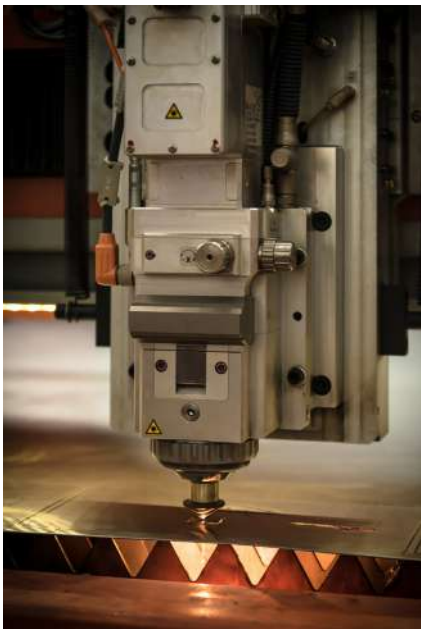

STAINLESS STEEL SPECIALISTS

We are committed to bringing to our clients only the best quality products with top-of-the-line finishes.
We pride ourselves on providing quick lead times, private labeling, and competitive pricing.

PVD Finishes

We are leaders in Physical Deposition finishing, a process that bonds the finish to a product at the molecular lever creating what is know as a Lifetime Finish which highly durable and resistant to oxidation

PVD Finishes

We are leader in Physical Vapor Deposition finishing, a state-of-the-art process that molecularly bonds the finish to the faucet creating the most durable finish available today. Comes with a lifetime warranty against tarnishing.

What does PVD stand for?

PVD stands for Physical Vapor Deposition. This state-of-the-art process creates a molecular bond to the faucet resulting in the most durable finish available today. Products with PVD finish will not corrode, discolor, or tarnish.

OFFSET LADDER PULL L20

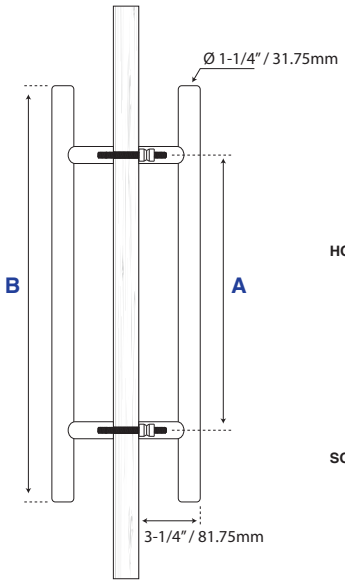

JALADERA PARA PUERTA L20

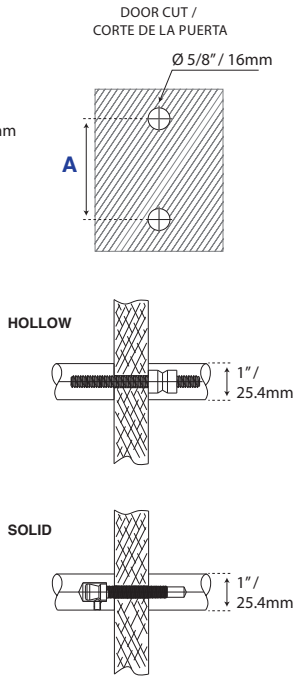

Set

Int / Ext

FEATURES / ESPECIFICACIONES:

- Ladder Pull
- Material: Stainless Steel 304
- Finish: Satín and Negro
- Made of 1-1/4" (31.75mm) 304 grade Stainless Steel tubing
- Supplied with (2) SOLID 304 Stainless Steel 304 mid post
- Requires two 5/8" diameter holes
- For use Wood doors 1-3/8" a 2-1/4" thick
- Includes screws

- Manillón tipo "H"
- Material: Acero Inoxidable 304
- Acabados: Satín o Negro
- Fabricado con tubo de 1-1/4" (31.75mm) de Acero Inoxidable 304
- Patas sólidas (2) de acero inoxidable 304
- Requiere dos perforaciones de 16mm
- Para puertas de Madera con un espesor de 35 a 57mm
- Incluye tornillos
